An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Theodore Allen on May 15, 2006.

Please cancel claim 20.

The following is an examiner's statement of reasons for allowance: After review and reconsideration in view of appellants arguments the prior rejection is withdrawn. Appellants' argument is that papillomas describe a histological diagnosis of tissues in the breast duct. Papillomas are considered to be tumors (benign epithelial lesions) that grow within the breast duct (skin or mucosa), they are not cancer and are unlikely to grow into a cancerous mass. (see Appeal Brief, January 13, 2006, page 9). Not all papillomas or papilloma like growths have a viral origin. Warts are papillomas that happen to have a viral origin. The prior art only diagnosed the papillomas based on histological examination, the prior art did not test for the presence of a virus. Because not all papilloma like growths are of viral origin the prior rejection is withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
